

# Personalized Signature Edition Pickguards

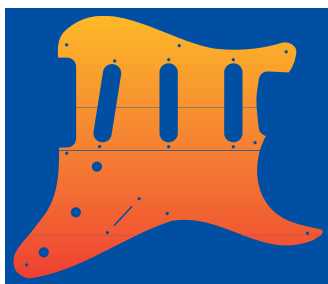

If you're tired of waiting for that big endorsement deal to come through or would just like to make your guitar truly yours, these "Signature Edition" guards designed to fit Rickenbacker® guitars and basses are the ticket.

Your signature or logo (1" by 3") is scanned, cut in vinyl, applied to the rear of a clear guard blank and back-painted in your choice of colors.

If your guitar has an upper and lower guard, it's best to order a complete set so the guards match, although individual guards can be ordered. Also available for other makes of guitars and basses.

Since each of these guards is a custom project, please contact Pickguardian for exact project pricing.
